### About this release

Thank you for using McAfee® VirusScan® for Mac. This document contains important information about the current release. We strongly recommend that you read the entire document.

### New features

Here is the list of features included with this release of the product.

Feature	Description
<b>Anti-spyware protection</b>	Protects the Mac from spyware threats.
<b>5600 Engine support</b>	Pre-packaged with latest 5600 engine.
<b>Option to disable the local 4:45 p.m. anti-malware update task from ePolicy Orchestrator</b>	By default, this Anti-malware and DAT files update is scheduled at 4.45 pm local time every day. You can disable this option from ePolicy Orchestrator on a managed Mac.
<b>Auto migration of existing ePolicy Orchestrator policies, tasks, and reports during the extension upgrade.</b>	When the extensions are upgraded, the existing ePolicy Orchestrator policies are migrated and the existing reports are upgraded to the new version automatically.
<b>Improved performance</b>	Completes scan faster and with less resource and make sure that resources are consumed only when the feature is used.
<b>Power management</b>	Minimized battery consumption.
<b>Mac will show status as secure if a feature is turned off from ePolicy Orchestrator.</b>	When a protection feature is turned off from the ePolicy Orchestrator, the security status of the managed Mac will appear as "Your Mac is secure".
<b>Support for Spanish Language</b>	The product is now available in Spanish language.
<b>Revamped product guide</b>	Provides additional information about the product and its features.

### Files included with this release

This release contains the following files.

- **VSM950-RTW-XXXX.dmg** — Standalone installer.
- **VSM950-RTW-ePO-XXXX.zip** — ePolicy Orchestrator 4.6.x deployment package.
- **VSM950-RTW-ePO-extension.zip** file that contains:

- en-us — English
- de-de — German
- es-es — Spanish
- fr-fr — French
- ja-jp — Japanese

## Installation instructions

For information about installation, see McAfee VirusScan for Mac Product Guide.

**Important** McAfee VirusScan for Mac is synonym of the anti malware component of McAfee Endpoint Protection for Mac. Therefore, when you install McAfee VirusScan for Mac, you will notice the product name appears as McAfee Endpoint Protection for Mac in the user interface, ePolicy Orchestrator, and in the extension packages.

## Known issues

For known issues in this product release, refer to KnowledgeBase article [KB77916](#).

## Find product documentation

McAfee provides the information you need during each phase of product implementation, from installation to daily use and troubleshooting. After a product is released, information about the product is entered into the McAfee online KnowledgeBase.

### Task

- 1 Go to the McAfee Technical Support ServicePortal at <http://mysupport.mcafee.com>.
- 2 Under Self Service, access the type of information you need:

To access...	Do this...
User documentation	<ol style="list-style-type: none"><li>1 Click Product Documentation.</li><li>2 Select a product, then select a version.</li></ol>

3 Select a product document.

KnowledgeBase

- Click Search the KnowledgeBase for answers to your product questions.
- Click Browse the KnowledgeBase for articles listed by product and version.
